What is Medusa?

Medusa is a New York City based growth & management agency. We partner with creators to take them to their max potential. Whether you're a newcomer or have a paid page already, our goal is the same:

Maximize your earnings, while minimizing your effort.

We are a full-service, boutique agency.

Full-service: we do everything for our creators.

Boutique: we only take on select creators to serve them best.

We sign creators to a percentage of their earnings (like a modeling agency) and allocate resources to them to massively increase their earnings.

Did you know?

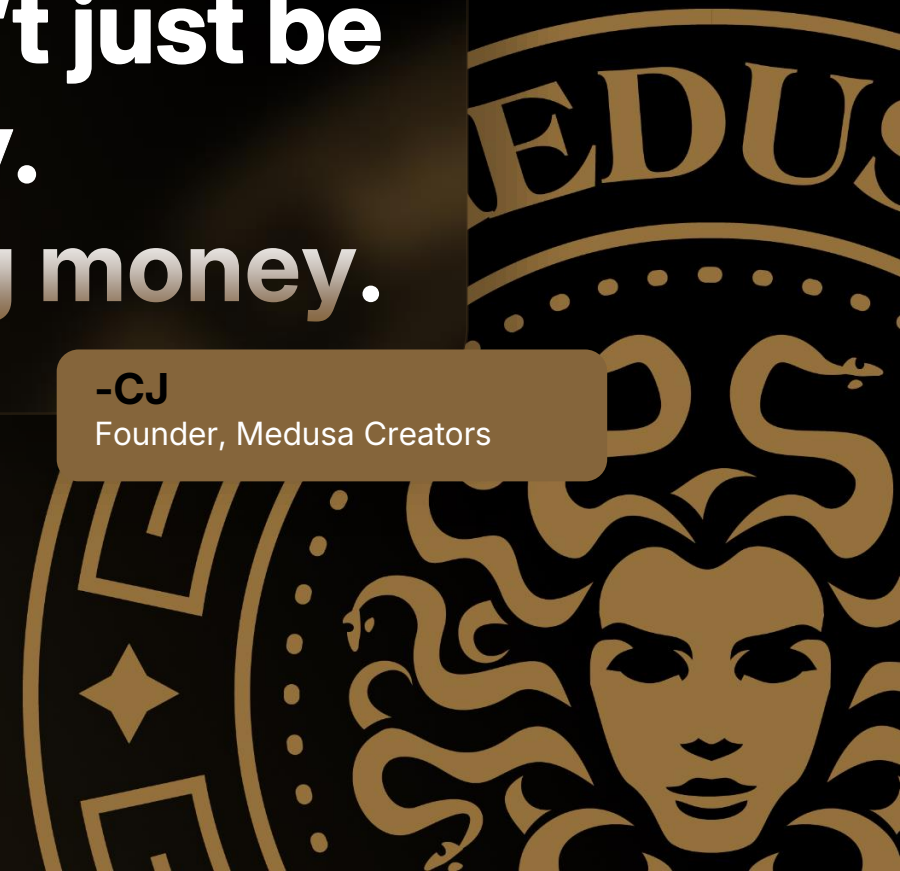

Other agencies are signed with 50+ creators at once!
You are NOT just a number on a spreadsheet at Medusa.

**Doing OnlyFans shouldn't just be
some side money.
It should be life changing money.**

-CJ

Founder, Medusa Creators

Some of the things we do for your success...

GROWTH

We are marketers by background, we run a vast marketing effort for each creator. Utilizing dozens of tools, accounts, platforms, and connections. We run many accounts for each creator, pay for advertising, and utilize countless underground methods to get more fans.

24/7 CHATTING SALES

Our crack sales team works in shifts for 24-hour coverage. If someone is awake anywhere, your page is still selling and continuing chats to maximize chat sales, which end up forming 70%+ of earnings in pages we run.

PIRACY PROTECTION

We legally takedown your content anywhere it shows up online, so fans can only pay you for your content. Medusa monitors the internet for leaks and runs the most advanced content removal effort in the industry.

PERKS

To show our appreciation, we are always working on perks to improve your quality of life. Qualifying creators can get content gear, loot boxes, gym memberships, personal trainers, health consults and more –all on us! Fans can also buy you gifts from your wishlist we setup. Ask us about a Creator Starter Kit! Coming soon: content events, tax/investment advisors.

EDITING

We edit all your content in-house. And setup your personal brand according to your niche. Videos, clips, photos can just be dumped our way, and we'll sift through it. No need to learn Photoshop, CapCut, Premiere. Any blurring can be requested. Just need raw content from you. Ask us about our proprietary Midas Touch editing formula!

PRIVACY PROTECTION

If staying anonymous is vital to you, ask us about our Privacy Protocol for complete information. We have the most advanced privacy protection in the industry, by far. Beyond just blurring, we use AI, scan the web, scrub info, air gapping, and much more. There is no safer way to do OnlyFans for anonymous creators. We truly care.

Just Add Content!

The team at Medusa does the rest!

Drop-in content, get paid every Monday.

We'll be working on your page every day to reach your next earnings goal.

Why do I need management?

Ask anyone, OnlyFans is harder to do in 2025 than ever. There are now 5 million+ creators making content, it is extremely competitive. The average creator earns only \$108 per month without management. Thus, most newcomers quit within days or weeks of starting.

Others may gather some fans, but waste all their time attending to them and still earning less than with an agency. These creators also inevitably fade away soon from burnout and declining earnings.

"I was working every second of every day" for 2 years, a creator once told us, all for earnings she would easily surpass with us for almost none of the work. Yikes!

The truth is that the vast majority of top OnlyFans creators are managed by agencies, which bring them to the top and keep them there. Solo creators are unknowingly competing against trained agencies.

We've unfortunately seen many solo creators come and go, we know what it takes to get to the Top 1% of creators.

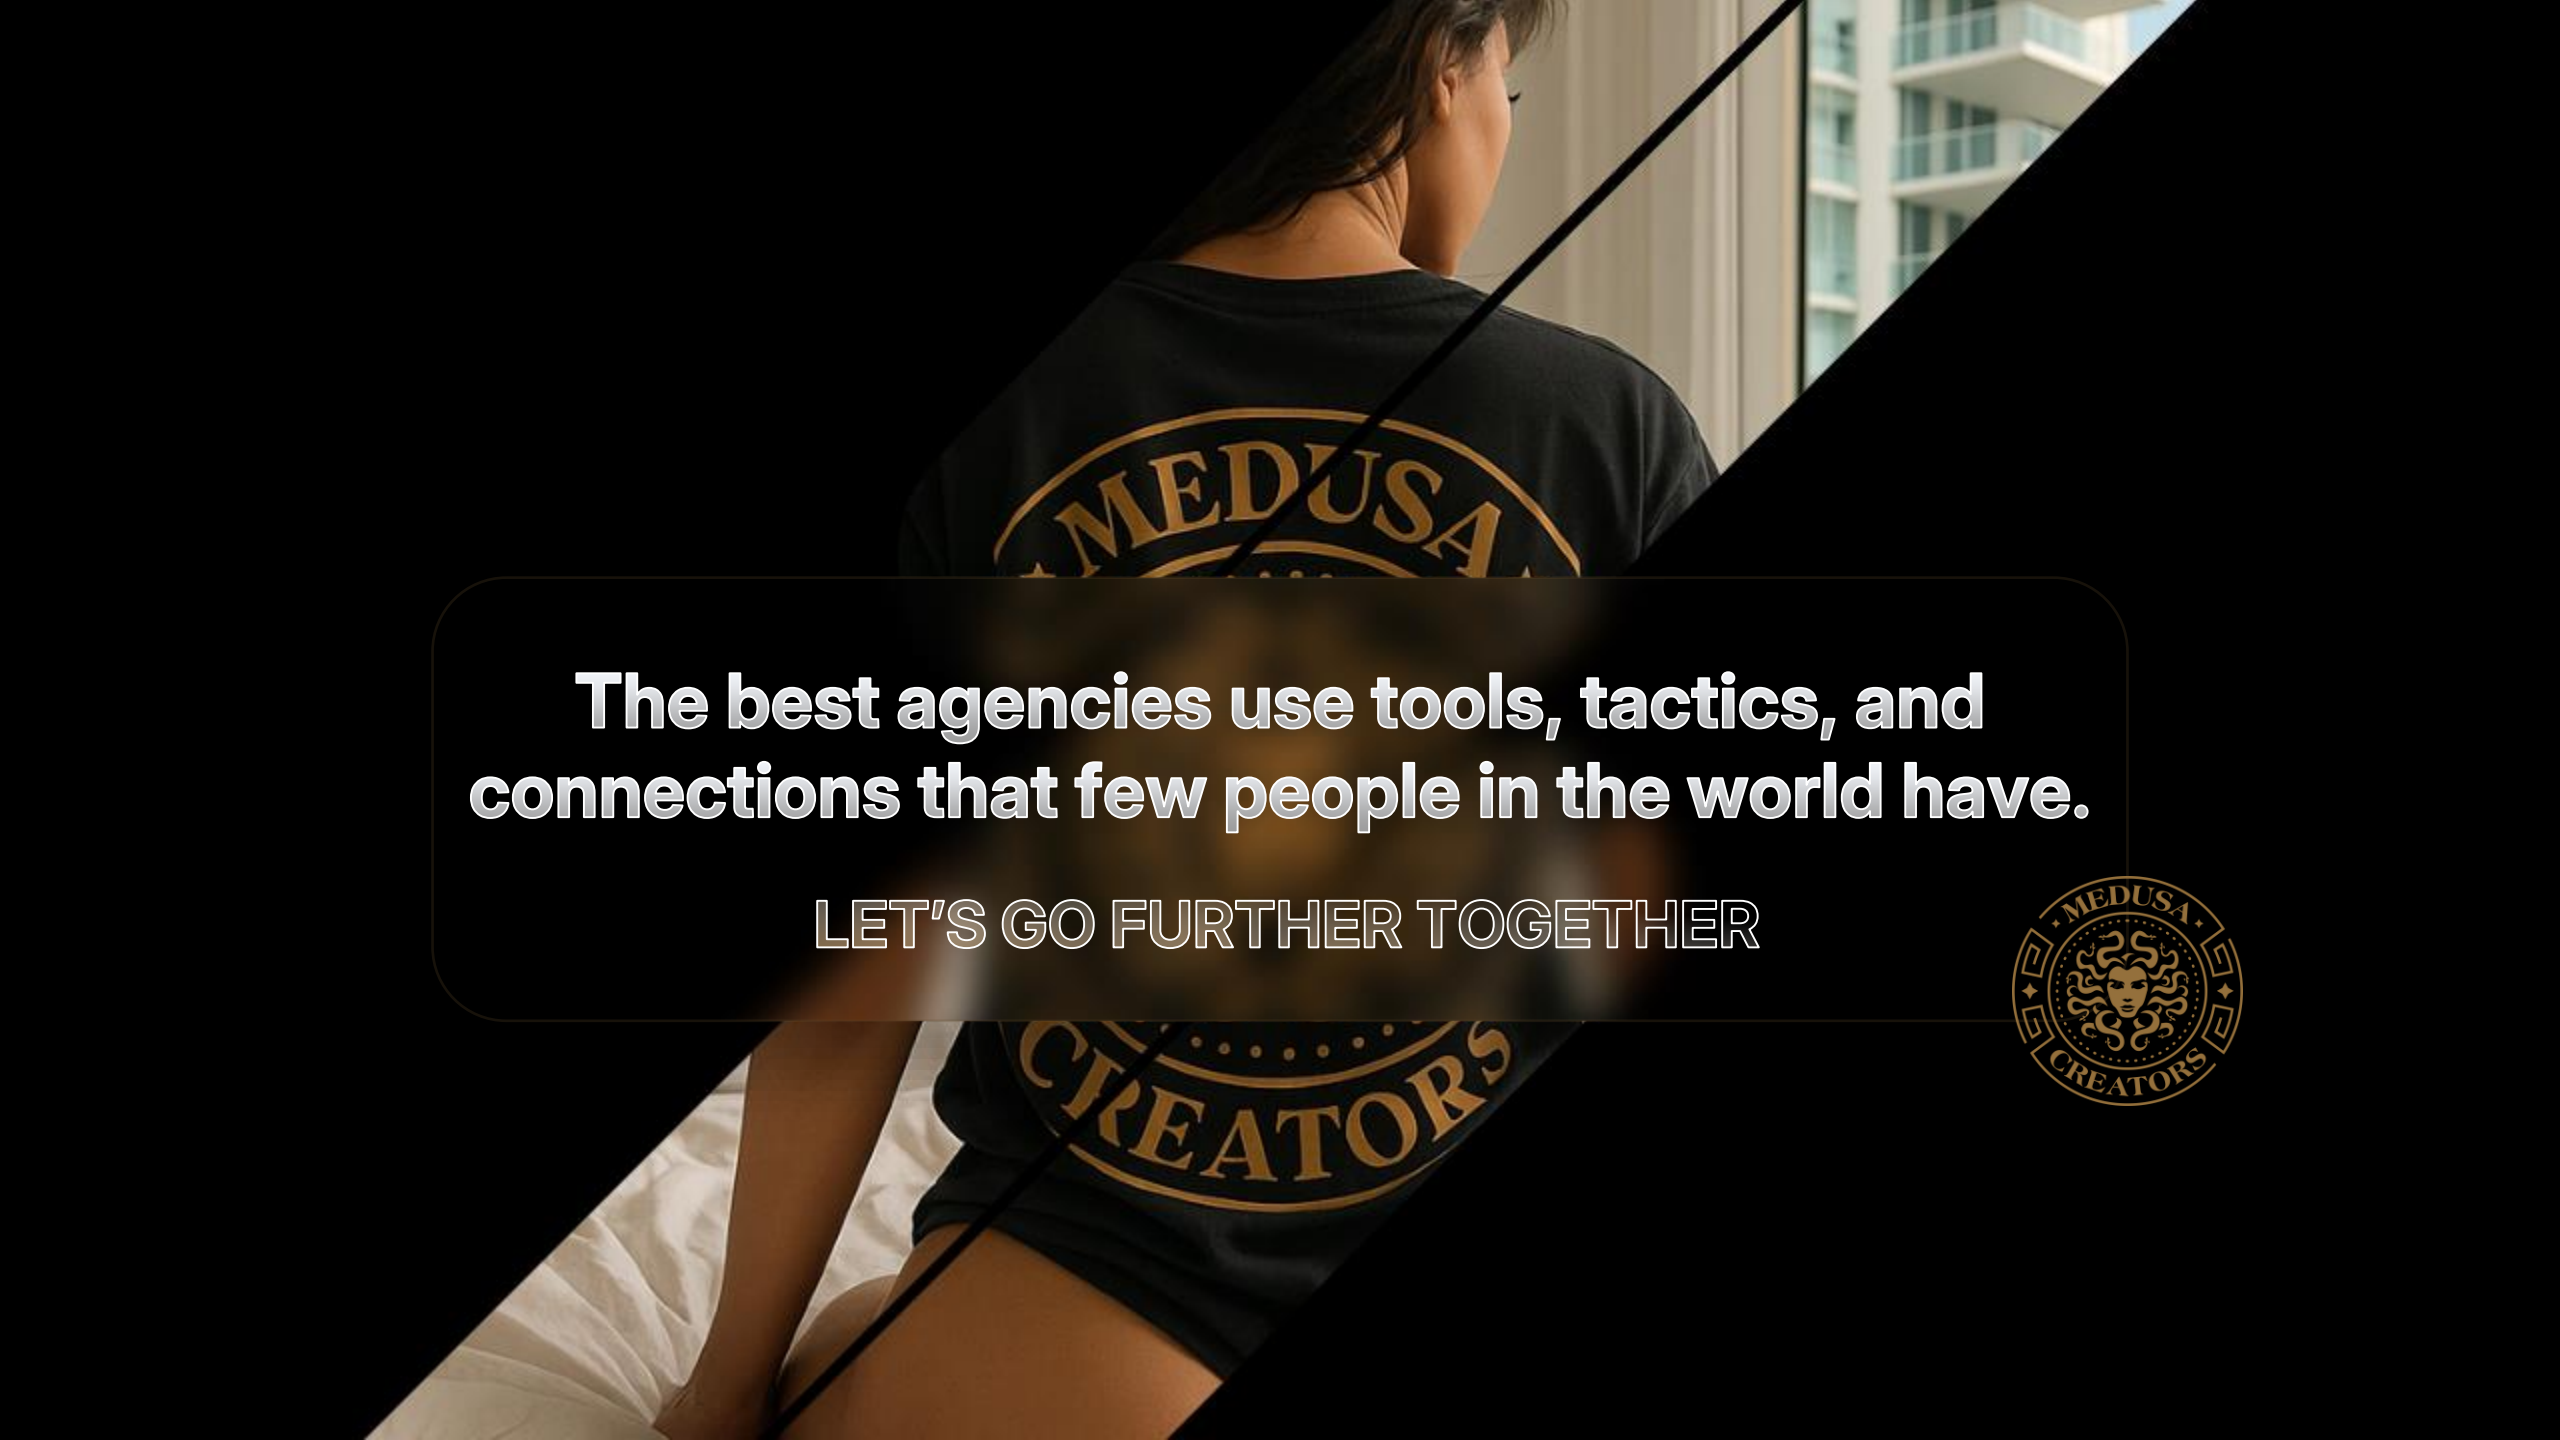

Even if you don't desire riches –or are doing it for fun. Working with an agency takes the stress off your back and gives you freedom, with a stable income for little effort.

Solo Creator Versus a Medusa Creator

i The agency always makes less than you, Medusa invests in your pages using its own share. Thus, you always make the lion's share.

The best agencies use tools, tactics, and connections that few people in the world have.
